

STAGE 8 CONSTRUCTION on track

Completion of Stage 8 is on track for mid March. Buyers have now secured over 30 of the 51 Stage 8 lots. January has seen sustained high levels of enquiry demonstrating ongoing demand for Greenwoods as an extremely popular neighbourhood.

Developer Bill Madders is confident only a limited number of lots will be available for release to the general public when Stage 8 construction concludes shortly. Interested buyers are again encouraged to secure a lot at the earliest opportunity to avoid disappointment.

future development

While current economic conditions provide a degree of uncertainty, developers WM Projects have signalled that they plan to maintain the construction program moving onto the development of Stage 10, when Stage 8 is completed.

Bill Madders expects demand to exceed supply when Stage 8 is finally completed. "I want to ensure that there is an ongoing supply of big blocks in our estate so we remain able to meet the obvious market demand."
