The big block. It's back.

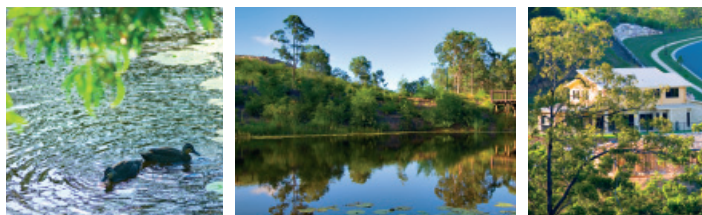

Remember when the great Australian dream was to own your own home on 1/4 acre block, have 2.3 kids and enjoy a roast on a Sunday afternoon? Well the Sunday roast is still alive, but suburban blocks seem to be getting smaller every year. At Greenwoods, we're bringing the big block back. Space to breathe. Space for the architect design home of your dreams. Space for everything. The Big Block, it's back. Alive and well in Brisbane's Northside.

One opportunity. Many benefits.

Greenwoods presents to you the opportunity to own your life again. Not only can you live in a beautiful environment with native bushland, lush parklands and rolling hillsides, but you can have your home custom designed to suit the ideal block at Greenwoods. Join an established neighbourhood of prestige, architect-designed homes on huge lots with wide frontages, only 25 minutes from the city.

Feel miles away, but close to everything.

Greenwoods is ideally located with easy access to primary and high schools, child care, medical facilities and public transport including rail and express buses to the city. Cafes, restaurants and shopping at Westfield Shoppingtown Strathpine and Warner Village are just minutes away.

And, for those who seek endless recreation at their doorsteps, Greenwoods is close to many parks, bikeways and sporting reserves and just minutes from Lake Samsonvale with its great recreational and bushwalking areas.

Bring your dream home plans and we'll help you choose the best big block for your design.
