No Sequel No Equal No More!

End of An Era - Final Big Block Release

Over 10 years in the making, Bill Madders from developer WM Projects always had another land stage waiting in the wings to add to the growing Greenwoods community. Not any more. There will be no sequel this time with the 38 lots of stage 12 representing the final big blocks ever to be offered for sale at Greenwoods.

A stand out feature of these final 1250m² lots is the effort that has gone into their construction. Bill Madders proudly declares that they represent the very best blocks he has ever constructed at Greenwoods. Benched & fenced big blocks, with 25m frontages, builder friendly with beautifully engineered sandstone retaining walls, they are truly without equal.

Town planning regulations now restrict the development of any more big block estates such as Greenwoods which makes this 500 home community quite unique and only 20 klm from Brisbane city. Representing possibly the best value for money per m² in residential land on the northside of the Brisbane River, once these last lots are sold there will be no more.
