**Lots from
1250m²**

The continued popularity of the big blocks, unique to Greenwoods in the hills of Cashmere, was evident with the rapid sale of lots in the last land release. This demand combined with good weather has seen stage 10 construction nearing completion ahead of schedule. Featuring only 19 lots this special stage will be perfect for some. Lots with extended mountain, valley and tree canopy views will provide a great opportunity to build something special for those home builders with an eye for something different.

The hills and valleys of Greenwoods provide many examples of successful designs to suit sloping blocks and stage 10 provides just another opportunity. With block sizes ranging from 1250m²

to 1745m² at an average of \$295,000 per block – they represent excellent value. It is worth doing the comparison with other home lots north of the Brisbane River. Greenwoods is virtually impossible to beat in terms of value per square metre.

Take a look for yourself and be sure to register your interest with Elywyn Barnett our Estate Sales Manager and soon to be local resident.
